ANGLO-FRENCHARE SENATORS ASSAIL GREECE REFUSES COAMO WAS FIRED

the High Seas

Passengers Were Called Out in Their Night Clothes to Answer Cross Examination.

San Juan, Porto, Rico, Dec. 10 .--Four blank shots and two solid shots were fired by the French cruiser Descartes in holding up the American

steamship Coamo yesterday. A French Lieutenant who boarded the Coamo, said orders had been givon to take all subjects of Germany and her allies from the ships' crews, beginning Dec. 8, and to take all such persons from among the passengers

after Dec. 18. After the six shots had been fired and the Coamo had stopped a small boat put out from the cruiser, with the Lieutenant and his men. On proceeded to Captain Barbour's cabin

crew. The passengers were alarmed, and ran from the staterooms in their night clothes. Captain Barbour ask ed why the Descartes had not waited until morning to stop the Coamo, so as to avoid alarming the passengers.

and the passengers gathered on the deck to wish them good luck. The American steamship Carolina Paris, Dec. 10.-The Belgian plant sailed from this port on Wednesday Monday. It was not known here that Chief Steward Chadde of the Carolina had been taken off by the Descartes, as reported in a dispatch to

> New York, until the arrival of the Coame. Washington, Dec. 10 .- The State Department today was still without an official report of the action of the French cruiser Descartes in holding up the American steamships Coamo and Carolina. It was said that if the Coamo was fired upon the gravity of the situation was materially increased. Inquirtes for details have been dispatched to Europe and to Porto

> Rico. The holding up of the Coamo is con trary to principles, for which the United States has contended and if official reports corroborate press reports the entire matter will probably become the subject of diplomatie

protest. IMMUNE FROM ARREST

German Sallors on American Ships Cannot Be Taken by Enemies.

Washington, Dec. 9 .-- A German seaman aboard an American vessel on the high seas is immune from arrest by Germany's enemies, in the view of the state department, unless it can be shown that he is an active member of German naval or mili-

tary forces. Department officials made this clear today in commenting informally on news despatches that five Germans had been forcibly removed from the American merchantmen Coamo and Carolina by the French cruiser Descartes. It was said the captured men, provided they were not units in the German fighting forces, were as much entitled to American protection as they would have

been on American soil. The department tonight had no official advices on the seizures and until such advices are received no action will be taken. It was pointed out by officials, however, that the United States was on record as asserting in positive terms the immunity of persons of whatever nationality aboard American ships. This position was taken as recently as November, 1914, in a successful protest against the action of a French crufser in forcibly removing August Pipembrink, a German from the American

steamer Windber. WEATHER FORECAST
